STRAPPING SOLUTIONS

POLYPROPYLENE STRAPPING

Bandstrap® PP

Products made of different materials in varying sizes and shapes need to be packaged and transported securely. BANDMA® PP strapping is the ideal packaging solution for a wide spectrum of applications, for example, for construction materials, printed matter, in logistics, for furniture, corrugated board, newspapers and other various industries.

TECHNOLOGICAL LEADERSHIP

With BANDMA® PP, you will benefit every day from our technological leadership in the extrusion of strapping. Our own R&D department develops custom-tailored solutions for the safety of your goods while instorage and transport.

SAFETY

The safety of your goods is ensured by the ideal combinant of elongation and holding force. The reliable quality of BANDMA® PP is a product of the use of premium raw materials and our 25 years of experience in the extrusion of polypropylene.

SPEED

The excellent stiffness and perfect running characteristics of BANDMA® PP allow highest speeds and optimised cycle times. Special embossing techniques make BANAMA® PP virtually dustfree to keep your machines running.

HEALTH

BANDMA® PP is produced without the use of toxic additives. All PP strapping products are 100% separable and recycleable.

YOUR BENEFIT

- Troublefree operation
- More than 50 strapping cycles per minute
- No splitting
- No dust
- Wide BANDMA® PP product range
- Suited for all applications
- Consistent high quality
- Optimised strap stiffness
- Tested quality for use on automatic strapping machines
- Expertise for users
- Training courses for partners
- Suited for all applications

STRAP FOR FULLY AUTOMATIC MACHINE

Bandstrap® PP

FEATURES:

- BANDMA Straps are available in 5, 6, 8, 9, 10, 11, 12, 15, 16, 18 & 19 mm width and in white, various colors & Natural too with online Rotogravure printing facilities, giving excellent printing result on the strap.
- They are manufactured through the most sophisticated, hi-tech fully automatic plant giving us an edge over other manufactures.
- They perform smooth and trouble free running on fully automatic machines even at very high speed packing operations.
- Customization of the product with precise & specific requirements is also entertained.

Most Precise winding for hassle-free operation

Gap free flat winding for smooth flow

Embossed design for better aesthetics and slip-free operation

Note : Embossed designs are Subject to change without prior notice.

The BANDMA Polypropylene Straps gives quality satisfactory performance on different machines namely: Bottom and side seal type.

- Modular arch type.
- Fully-automatic transit type.
- Side seal adapted with Fully-automatic conveyor type.
- Mobile pallet strapping machine.

TYPE RANGE

Bandstrap® PP

	Product	Name	Description
STANDARD	BANDMA® GP	Gree Performance	Environment friendly, high quality automatic strapping for standard applications
	BANDMA® T		<p>BANDMA® adept High quality automatic strap from 5-6 mm width fulfilling the high speed quality requirements of the newspaper</p> <p>BANDMA® panache: High quality automatic strap from 7-16 mm width</p>
	BANDMA® verve	High Elastic	High quality automatic strap with high elongation for applications with shrinking packaging volume and sharp edges.
SPECIAL	BANDMA® super	Super High Elastic	High quality automatic strap with very high elongation for smallest packaging units or applications requiring highest elongation.
	BANDMA® eclat	Low Creep Elongation	High quality automatic strap with low elongation for compressed packaging goods requiring low elongation.
